Sharp Gains Not Maintained. Copper Firm-Short Interest Lighter.

NEW. YORK, Sept. 20.-Wall street ppened with considerable show of activity and a fairly good display of strength. The show of strength in the closing hours yesterday had a good effect, but there was no disposition to carry the bull sentiment into enthusiasm, but rather to temper it with conservatism, in view of the fact that much money is needed in crop movement and in business lines, and that the public is still wary of securities. It was also noticed that the short interest was not as large by any means as it has been for some little time, and this toning

At the morning session of the Conceptable Control of the Lutheran Church, which is holding its annual meeting in this city at the Grace Lutheran Church, the principal subject under discussion was the Toledo theses, which calls for a closer union between the Ohio and Iowa Synods of the Lutheran Church. The theses were adopted unanimously.

It was held by the synod that there is nothing in the relations of the Harmansburg Missionary Society to the Church of Hanover that should prevent co-operation on the part of the Ohio Savings Bank STOCKS.

Washington Gas and Washington Railway Common Show Some Improvement-Fair Sales.

There was just a moderate degree of

ctivity on the local Stock Exchange, with prices generally a shade firmer. Much of the business was done after the regular call. Local traders are finding Mitchell Mining a fairly good speculative security, and bids and offers are arely more than an eighth apart. The official announcement of the election of the new president was made on the Stock Exchange this morning, aithough this was nothing in the way of news as the Street has been informed of the change for some time. Washington Gas continues to attract the attention of number of brokers, and the tip is still in favor of the melon cutting in the near future. Every one knows what the 1331/4 intention and desire of the officials and insiders is, and the only question to be decided centers on the ability of the management to secure the necessary legal permission.

Gas Higher.

A small lot of Gas sold at 71 at the opening, then advanced to 71%. Some of the faithful bought the stock buyer sixty days, at 71½672. The higher prices represent carrying charges, as a result of the high rates prevailing for money, 5½66 per cent.

Washington Traction and Electric moved up fractionally from 35 to 35%, with moderate sales and a strong undertone.

Mitchell Mining is the speculative stock of the list, several hundred shares selling within a narrow range, 14 and 1% with the inside bid at the close. Lanston monotype sold sparingly, buy-er 30 at 12. Bonds were firm and prices steady.

Posner Bros.' stock inventoried about \$20,000, and it was announced by Goldenberg's that it was bought at 50 cents on the dollar.

The same advantages will be secured by the shopping public of Washington, for it is proposed to dispose of the various lines of men s'and boys' clothing, hats, shoes, and furnishings on the same favorable basis, that is, at a saving that average half regular prices.

The establishment of Posner Bros., at 323 Pennsylvania avenue, is well known throughout the city and bears an enviable reputation for handling only high-grade merchandise.
